Selectmen of Wayne

State of Maine
STATE HIGHWAY COMMISSION

Approval of Location of State Aid Road

*To the Municipal Officers,
Town of Wayne:*

The State Highway Commission of the State of Maine recommends the location of the section of state aid highway and the improvements to be made on the same in 1930 as herein described:

Description of State Aid Highway

On State Aid Highway No. 1, beginning at Winthrop town line and ending at Leeds town line.

*Description of section of above State Aid Highway to be improved
in 1930*

Work to begin about one mile from Leeds town line and extend in a general westerly direction.

It is $\frac{1}{2}$ mile west of state aid work done in 1910.

Improvements

Drainage, grading and surfacing.

FRANK A. PEABODY, Chairman
EDWARD E. FARNSWORTH
CLYDE H. SMITH

W. A. BURGESS, *Town Clerk*

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Wayne:

Mr. George C. Mower, who had served on the School Committee so faithfully and efficiently for nearly six years, resigned in November. The vacancy thus created was filled by the appointment of Mrs. Margaret M. Soule, who is serving for the balance of Mr. Mower's term.

The equipment of the new building has been in charge of the School Committee and all the major items, such as desks, seats, blackboards and maps have been supplied. Most of the textbooks and some of the reference books lost in the fire have been replaced. There is still a balance in the equipment account and this should be reserved for further reference books and for miscellaneous items of equipment, need for which is likely to arise in the near future. We wish to acknowledge here, most gratefully, the assistance given us by the State Department of Education in equipping our new building through the allotment of \$250.00 from the Equalization Fund.

We propose in the spring to place the playground apparatus formerly at the old school site on the new school lot. The playground space near the new building and the old baseball lot have been cleared of brush, but both should receive a good covering of gravel. We suggest that the area directly in front of the building receive further grading and be reserved, except for the necessary paths, as a lawn. We have an attractive new schoolhouse and now its playground and setting should receive proper attention. To this end we urge that another small appropriation be made this year for further grading.

There should be no outlay for repairs on the new building this year, but the building at North Wayne urgently requires some attention. Enthusiastic members of the Parent-Teachers' Association recently came to our aid with a papering "bee" and made the second floor room much more presentable for entertainments,

but further repairs must be made before the room is in a wholly suitable condition for use. The first-floor classroom was renovated in 1928 and the hot-air circulation was improved last fall, but the room is still inadequately supplied with electric lighting. Instead of a single light over the teacher's desk there should be four well distributed fixtures so that the entire room could be properly illuminated in dark weather. The older seats and desks in the room have outlived their usefulness and we propose this year to complete the installation of modern adjustable equipment.

There is practically no playground space at the North Wayne school and additional land should be purchased or leased for this purpose. The children are now virtually compelled to play in the street, if they are to play at all, and each year, with increasing automobile traffic, the street becomes a more dangerous place. The school lot boundary fence is now in serious disrepair, but as soon as the issue of additional land is determined, a new fence should be erected.

The new building has been insured for \$5,000.00 and the insurance on the North Wayne building has been increased so that the total now carried on it is \$3,000.00.

Last spring the up-keep on the town-owned school bus was becoming so burdensome that we felt it unwise to continue its use. We made arrangements with Mr. Samuel Jowett to provide motor conveyance with his own equipment and as a result the expense of conveyance has been materially reduced from last year's excessive figure. Conveyance expense for the 1929-30 fiscal year was \$143.62 less than for 1928-29, as a comparison of our financial reports will show.

The arrangement made for the daily motor conveyance of high school pupils to Winthrop has worked out very successfully and we urge its continuance for another year. The expense of this service to the town has been very moderate, averaging only about \$11.00 per week. We are recommending in our budget an appropriation of \$300.00 for the purpose of continuing this service. This amount is somewhat less than will ordinarily be required, for this year we have a fair balance on this account, as our financial report will show.

We concur with the Superintendent in recommending the continuance of an assistant teacher at North Wayne. It is chiefly for this reason that we are allowing for a slight increase in teachers salaries in our budget for this year.

At present twenty pupils are attending secondary schools out of town and the number for another year promises to be equally large. The average tuition payment is about \$90.00, so fully \$1,800.00 will be required to meet next year's tuition bills. The limit of state aid is \$600.00, so the School Fund will be called upon to bear the major part of this expense.

We wish to recommend an addition of \$27.00 to the usual appropriation for medical inspection for the purpose of securing the services of the public health nurse. Her work would be chiefly to follow up cases where defect or disease require special attention. \$27.00 is the charge which would be made by the State Department of Health for furnishing the necessary service to Wayne. The amount requested is very small in proportion to the benefit which may arise even if only a very few cases should require special attention.

We submit the following budget for the 1930-31 fiscal year:

School Fund Budget:

A. Estimated expenditures:

Teachers' salaries	\$3,100.00	
Fuel	275.00	
Janitor service	250.00	
Conveyance	1,000.00	
Books and supplies	225.00	
High school tuition	1,800.00	
		<hr/>
		\$6,650.00

B. Amounts available:

Balance	\$282.07	
State aid, estimated	1,500.00	
Misc. receipts, estimated	17.93	
		<hr/>
		\$1,800.00

1. Necessary appropriation for the School Fund	\$4,850.00
2. High school conveyance	300.00
3. Repairs	200.00
4. Insurance, light and power	25.00
5. Medical inspection	77.00
6. Grading of school grounds	200.00

We wish to thank our fellow citizens for their interest and co-operation. We trust that the liberal support accorded the schools in the past may continue so that the system can be kept at a high standard of accomplishment.

Respectfully submitted,

C. D. LINCOLN
EDNA WALLINGFORD
MARGARET M. SOULE

Superintending School Committee

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of Wayne:

The new building at Wayne village was ready for use in time for the opening of school in September. Your teaching staff and superintendent greatly appreciate the opportunity for carrying on work in such a convenient, well equipped building.

Mr. Clinton C. Nichols, a graduate of Farmington Normal School, is serving as principal of the building and teacher of the grammar grades, while Miss Geneva Pike continues as teacher of the primary grades.

A new teaching arrangement was instituted this year at the North Wayne school. Mrs. Helen M. Yeaton, a Farmington graduate and teacher with experience, has charge of the school, and is carrying on the upper grade work, while Miss Cora L. Libby, teaching chiefly the three lower grades, serves as assistant. This arrangement allows much more individual attention to the younger pupils who most need it, and at the same time makes possible longer class periods in the upper grades where more time had long been needed to cover properly the advanced work. The instruction has become much more thorough under this arrangement, and I believe it should be continued for another year.

Early in the fall term a testing program was initiated which it is proposed to make a permanent part of the school procedure. Standard psychological and achievement tests will henceforth be used regularly, with two definite purposes in view:

First: To determine as far as possible the abilities and interests of each pupil. Both psychological and achievement tests are being used to this end.

Second: To determine how our school accomplishment compares with that of other school systems. It is possible through the use of achievement tests to make an accurate comparison of local achievement with the standard for the entire country.

The full value of the tests cannot be realized until a second set is given in the spring, when we shall know if we are really making a year's progress in a year's time. But the test information already obtained has given us material assistance in determining the varying capacities, interest and needs of the different pupils. More attention can now be given to the problems of individual pupils and we know more exactly than heretofore how the instruction should be varied to meet the needs of each one. Every child should be given an equal opportunity to develop his capacities to the utmost, but that does not mean that every child should be, or can be, developed by exactly the same formula.

One need of the schools, for some time noticeable, has been much emphasized by the test results, and that is the need of a sub-primary grade in each village. Wherever it is the custom to send children to school at the age of five there should be sub-primary instruction previous to entrance to the first grade. The work for the sub-primary group should be largely kindergarten in nature, for the average child is not ready to read before he is at least six years old. Children differ widely in their rate of development so there are some well over six before they should have formal reading instruction. The sense of number likewise develops slowly, so arithmetic instruction should not begin too early.

Under present conditions the majority of children entering school are forced into reading and number instruction fully a year before they are really ready. As a result they find the work too difficult, develop wrong habits of study, and are likely to acquire a life-long distaste for school. Few things are more disheartening than to be continually struggling with problems that are just a little beyond one. All through the grades in the Wayne schools are pupils who are capable of doing good work, but cannot so long as they are in a grade that is a year or more beyond their stage of development. A year too young in the first grade means a year too young all the way through.

With a view to improving this situation, I recommend most strongly that in the fall of 1930 all children entering school for the first time be enrolled as sub-primary rather than as first

grade pupils, and that their instruction be carried on accordingly. Such a step would eventually do much to raise our standard of achievement throughout the grades.

Hot noon lunches are now being served regularly to a large group of pupils in the new building at Wayne village. Some of the older girls assisting in the preparation of the lunches are incidentally gaining no little knowledge of home economics. A smaller group of pupils remains during the noon hour at the North Wayne School, but preparations are being made there for the serving of hot drinks and soups.

We are pleased to extend a cordial welcome to the newly organized Parent-Teachers Association. There is in every community an underlying spirit friendly to the schools, but this spirit cannot make itself felt and cannot accomplish much real good unless it can become organized. It is the function of the Parent-Teachers' Association to organize this spirit and to make it serve a helpful, useful purpose. We who are associated with the schools are always glad to co-operate if we can find someone with whom to co-operate. The new organization will help us to know the parents better and the parents, in turn, to know the schools better. We shall all be able to work more effectively for school progress.

I wish to express my appreciation of the interest shown in the schools by the citizens of Wayne, and to acknowledge more specifically the faithful service of the teachers, the consistent support of the school committee, and the courtesy of the other town officers in the transaction of official business.

Respectfully submitted,

L. C. DAY

REPORT OF THE SCHOOL BUILDING COMMITTEE

To the Citizens of Wayne:

After a careful consideration of different plans and consultation with several contractors, we placed the construction of the new schoolhouse for Wayne village in charge of Mr. H. E. Bickford, of Auburn. Mr. Bickford carried on the work in a rapid and efficient manner during the summer, so that the building was ready for occupancy when school opened on September 9th.

The former baseball field at the rear of the building has been cleared for a playground and a start has been made in grading the street side of the grounds. We join with the School Committee in recommending that a small appropriation be made this year for a further grading of the playground and the front approach.

We submit herewith a summary of the expenditures for the new schoolhouse. It gives us especial pleasure to report that we were able to complete the building well within the appropriation.

We wish to express here, on behalf of the citizens of Wayne, the feeling of gratitude which we all share toward Mr. F. G. Lamson, and Mr. Sherwood B. Norris, who so kindly gave the town a building site for the new schoolhouse. We appreciate not only the saving in money, which was considerable, but the generous spirit in which the land was given.

Respectfully submitted,

J. B. BERRY, Chairman
J. W. MAXIM
RAY NORRIS

School Building Committee.

L. C. DAY, *Secretary ex officio.*

WARRANT FOR TOWN MEETING

To L. D. Lincoln, a constable of the Town of Wayne,

GREETING:

In the name of the State of Maine you are hereby authorized to notify and warn the inhabitants of the Town of Wayne, qualified to vote in town affairs to assemble at the Town House in said town on the 10th day of March A. D. 1930 at 10:00 o'clock in the forenoon to act on the following articles; to wit:

Art. 1—To choose a moderator to preside at said meeting.

Art. 2—To choose a town clerk for the ensuing year.

Art. 3—To act on the reports of the several town officers.

Art. 4—To choose all necessary town officers.

Art. 5—To see what sum of money the town will raise and appropriate for the School Fund, said fund being for the maintenance of the common schools, text books and supplies and high school tuition.

Art. 6—To see what sum of money the town will raise and appropriate for repairs of schoolhouses; insurance, light and power for the schoolhouses; medical inspection; repairs of schoolhouses and grading the new school grounds.

Art. 7—To see what sum of money the town will raise and appropriate for the conveyance of High school pupils.

Art. 8—To see what sums of money the town will raise and appropriate for the repairs of roads and bridges; support of poor; patrol work; Memorial Day; contingent and to defray all necessary charges for the ensuing year.

Art. 10—To see if the town will vote "Yes" or "No" on the question of raising and appropriating money necessary to entitle the town to State Aid as provided in Section 19, Chapter 25 of the Revised Statutes of 1916.

Art. 11—To see if the town will vote to raise and appropriate a sum not to exceed \$533.00 for the improvement of the section of state aid road outlined in the report of the Highway Commission, in addition to the money regularly raised for the care of ways, highways and bridges, the above being the maximum amount which the town is allowed to raise under the provisions of Section 18, Chapter 25 of the Revised Statutes of 1916.

Art. 12—To see if the town will authorize the selectmen to hire money to build a cement bridge at North Wayne village or act anything thereon.

Art. 13—To see what sum of money the town will raise and appropriate for lighting the streets of Wayne and North Wayne villages.

Art. 14—To see if the town will vote to raise and appropriate the sum of \$5.00 to insure the free delivery of books from the library of the Wayne Library Association to all citizens of Wayne in accordance with the Revised Statutes, Chapter 57, as amended by Chapter 183 of the Public Laws of 1916.

Art. 15—To see if the town will vote to pay for the services of it's superintending school committee.

Art. 16—To see what sum of money the town will vote to grant and raise to be expended and used for advertising the resources, advantages and attractions of the State of Maine, or act anything thereon.

Art. 17—To see if the town will vote to grant and raise the sum of \$575.00 to pay bond and interest on fire truck account.

Art. 18—To see if the town will vote to pay for surety bonds for officers of the town requiring same, or act anything thereon.

Art. 19—To see what sum of money the town will grant and raise for the upkeep of it's fire-fighting equipment, or act anything thereon.

Art. 20—To see if the town will authorize it's selectmen to make temporary loans in anticipation of taxes.

Art. 21—To see what sum of money the town will grant and raise for additional snow fence.

Art. 22—To see if the town will vote to continue to have snow removal for motor traffic, to meet with the requirements of the State Highway Department in order to entitle the town to state aid, on the road from Winthrop town line through Wayne village to East Livermore town line and from the Winthrop Town line through North Wayne village to the Fayette town line, or act anything thereon.

Art. 23—To see if the town will vote to purchase snow removal equipment or act anything thereon.

Art. 24—To see if the town will vote to contract for the removal of snow for motor traffic, or act anything thereon.

Art. 25—To see if the town will vote to raise and appropriate the sum of \$400.00 for the maintenance of third class road as provided in Chapter 260, Section 4, Public Laws of 1929.

Art. 26—To see what sum of money the town will raise and appropriate for the maintenance of third class road built prior to 1927 and for the cutting and removal of bushes on improved roads.

Art. 27—To see if the town will adopt the ballot system of electing it's officers.

Art. 28—To see if the town will vote to abate the taxes due from A. E. White, collector for 1921, amounting to \$47.80.

Art. 29—To see if the town will vote to discontinue the present method of electing the tax collector and elect one person to serve in the capacity of treasurer and tax collector at a salary.

Art. 30—To see what salary the town will grant to the tax collector and treasurer combined.

Art. 31—To see if the town raise \$27.00 toward the support of county public health nursing under the State Department of Health to continue work with mothers and children.

Art. 32—To see if the town will raise the sum of \$350.00 to pay outstanding schoolhouse bonds.

Art. 33—To see if the Town will raise the sum of \$705.09 to pay overdraft on new schoolhouse.

Art. 34—To see what instructions the town will give it's officers.

The Selectmen hereby give notice that they will be in session at the town house at nine o'clock on the day of said meeting for the purpose of correcting the list of voters.

Given under our hands at Wayne, Maine this 25th day of February, 1930.

V. A. LINCOLN

M. M. SOULE

J. B. BERRY

Selectmen of Wayne.
